

# GIS & Web Mapping Services

## Pricing Guide

### ■ Basic Plan – Starting at \$200

Ideal for small-scale or proof-of-concept projects.

**Includes:**

- 1 interactive web map (1 dataset)
- Basic map styling & popup info
- Hosted on GitHub Pages
- Up to 3 revisions

**Example:** Visualizing tourism hotspots for one city.

*Best for students, NGOs, and startups starting their spatial journey.*

### ■ Professional Plan – Starting at \$400

Perfect for organizations or consultants needing advanced interactivity and analytics.

**Includes:**

- 1–3 datasets (e.g., farms, health, or flood zones)
- Filters, legends, and color-coded polygons
- Custom branding & analytics integration
- Responsive (mobile-friendly) dashboard
- Up to 5 revisions

**Example:** Agriculture or flood-risk dashboards for one region. *Ideal for NGOs, local governments, and consulting teams.*

### ■ Enterprise Plan – Starting at \$800+

For large-scale or custom enterprise systems.

**Includes:**

- Multiple datasets (5+)
- Dynamic dashboards and map analytics
- Cloud data integration (Google Sheets / APIs)
- Custom domain setup
- Ongoing maintenance & data updates

**Example:** National-level geospatial dashboards for ministries or private organizations.

*Tailored for high-impact, multi-stakeholder projects.*

### ■■ Optional Add-Ons

Custom data cleaning / preprocessing	from \$50
Report generation (PDF / Docs)	from \$75
Priority delivery (within 3 days)	+25%
